Thomas J. Sandell

April 15, 2024

Dear State Representative:

I am writing to notify you that I, as Business Manager of Pittsburgh Plumbers Local 27, strongly support the introduction of House Bill No. 2153.

HB 2153 mandates prevailing wage for offsite fabrication and assembly. This is necessary to promote fairness in the construction industry by ensuring that workers engaged in these activities are not being paid substandard wages and benefits. Enacting this bill will protect workers from exploitation and enable them the ability to support themselves and their families.

HB 2153 will help responsible contractors who already do the right thing while at the same time prevent unscrupulous ones from gaining an unfair advantage by undercutting prevailing wage.

HB 2153 will also bolster the tax base which will effectively benefit every community within the Commonwealth. This bill promotes fairness amongst contractors and protects the rights of Pennsylvania workers.

I urge you to support HB 2153 and work towards its swift passage in the Pennsylvania Legislature.

Sincerely,

Edward J. Bigley
Business Manager Local 27
